## Reduces Hair Loss by Activating the Scalp's Blood Circulation

Cebellox shampoo contains biotin and other ingredients necessary for healthy, shiny and thick hair. Biotin (vitamin H) is the part of vitamin-B complex group. Deficiency of biotin can lead to hair loss or other hair problems. This revitalizing formulation utilizes the strengthening properties of biotin to improve the health of hair.

### BIOTIN

One of the major reasons for hair loss is Biotin deficiency. Our biotin infused shampoo helps increase your body's levels of biotin (without having to take an oral supplement). Not only does Biotin promote natural hair growth, it also helps combat dryness, breakage and hair loss.

### PROCAPIL

Undernourished and weak hair strands lead to hair fall. Clinical Studies say that Procapil reduces hair loss by fighting hair follicle aging and dormant hair follicles. In essence, Procapil works to increase blood flow in the scalp to nourish the scalp, thicken brittle and thinning hair, while fighting hair loss, and strengthen the hair from root to tip

### XYLISHINE

is a hair repairing and moisturizing active. It is a bio-inspired association of natural sugars mainly from wood and from the brown algae, *Pelvetia canaliculata*. It repairs the hair fiber and restores the deep moisture of damaged hair. It significantly boosts hair shine.
